BoCA: Biennial of Contemporary Arts (since 2017)

Website memory

BoCA – Biennial of Contemporary Arts is an event of contemporary art and creation, with a particular focus on transdisciplinary and breaking boundaries. It seeks to establish an important synergy between Lisbon and other national and international cities, as well as a dialogue between different cultural institutions (theaters, museums, galleries, foundations, schools) and the public space. So far, two editions of the biennial have been held, the third of which will take place between September and October 2021. This is organized by the cultural association Boca, founded in 2015, based in Lisbon.
