# SavePageNow

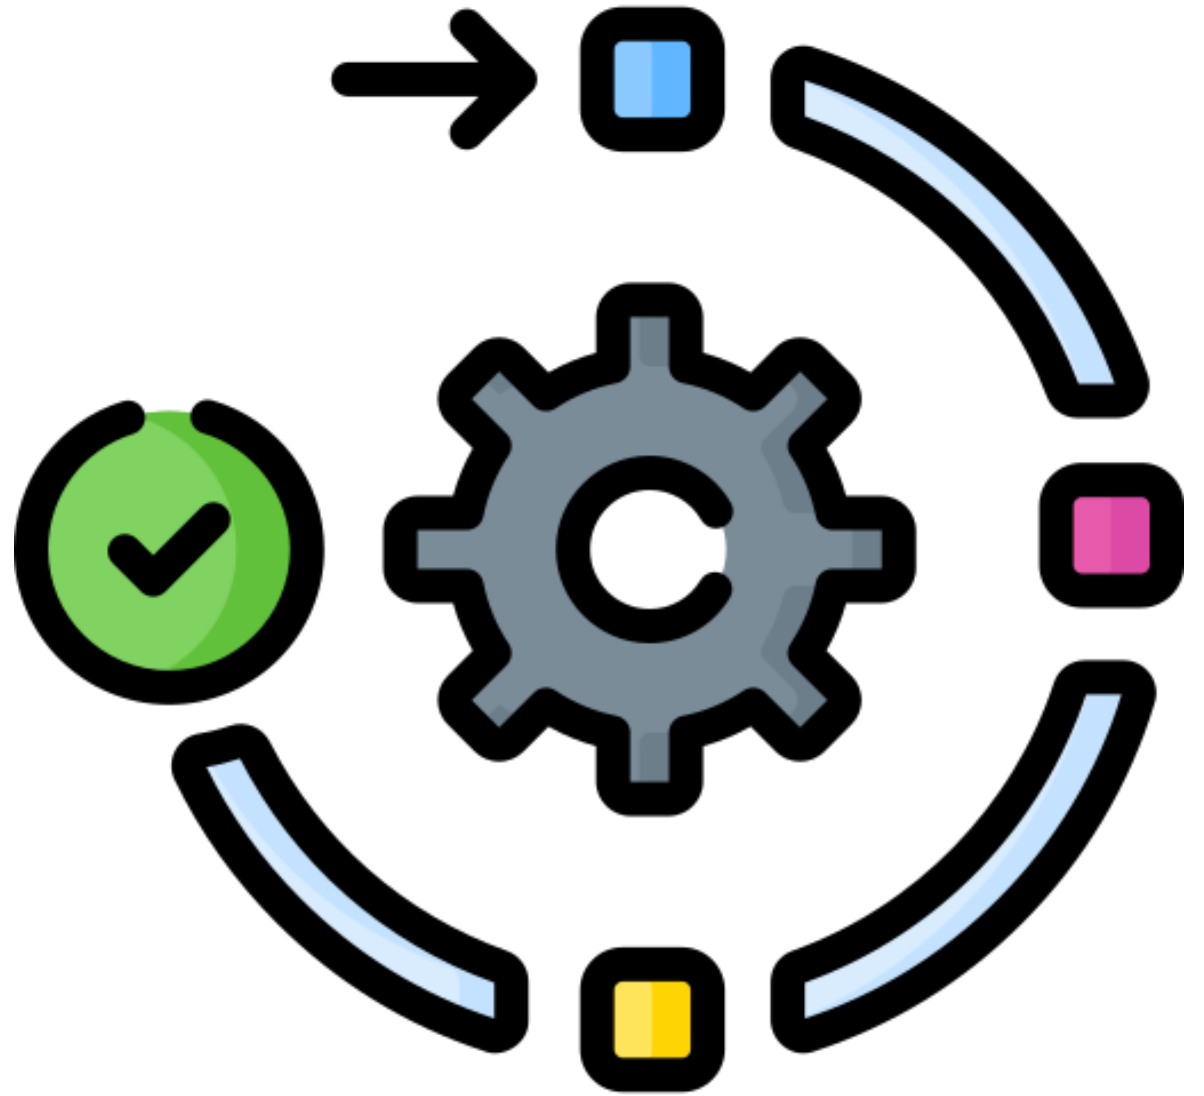

## What is SavePageNow?

The SavePageNow function stands out, allowing anyone to save a Web page to be preserved by Arquivo.pt.

Arquivo.pt SavePageNow was inspired on the Internet Archive Save Page Now and implemented using webrecorder pywb.

# Submit our Web page

## SavePageNow

Record webpages on Arquivo.pt

Record

e.g. www.fccn.pt

The SavePageNow service allows a page to be archived at the exact moment the user makes the request. The archived contents are later integrated in the Arquivo.pt collection.

### TWITTERVANE

Prototype/Investigatory project by the British Library to use Twitter to build a web archive collection.

### WARC TOOLS PROJECT

The main goal of the WARC Tools project was to facilitate and promote the adoption of the WARC file format for storing web archives by the mainstream web development community by providing an open source software library, a set of command line tools, web server plug-ins and technical documentation for manipulation and management of web archive files, or WARC files.

### WAYBACK, HERITRIX AND NUTCHWAX DOCUMENTATION

2009 project led by the Internet Archive that documented NutchWAX, Heritrix, and Wayback.

### WEB ARCHIVE PROFILING VIA SAMPLING

Research project looking at how archives respond to queries for archived content and over time build up a profile of the top-level domains (TLDs), Uniform Resource Identifiers (URIs), content language, and temporal spread of the archive's holdings.
